featured artist

Two Can Art is a collaborative collection of art created by artist Patti Gay and her non-verbal autistic son Noah.

From a very young age Noah has been creating interesting textures with paint that Patti layers and manipulates into imaginative works of art. Noah's textures work as Patti's palette. There are sometimes 40 or 50 layers of texture pieced together to form one image.

The best part of this mother son team is that Noah and Patti have something that they love and can do it together.
